Protest Letter against Hargray Communications

I am protesting their plan to charge all residential customers a flat \$2.25 per month for local long distance calls. The current charge now is .04 per minute of usage. Many of us make few of these calls but will now be penalized due to a complaint they received from a resident in Sun City. I average .25-.30 per month and do not feel I should be expected to help subsidize other residence calls.

Hargray has always had a good reputation in this community but in this instance we are being severely taken advantage of by them. They stand to make quite a profit on this.

I do not plan to attend the hearing. Thank you.
